BRAVEHEART RESOURCES INC.

INTERIM UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Expressed in Canadian Dollars, unless otherwise stated)

FOR THE THREE AND NINE MONTHS ENDED FEBRUARY 28, 2022 and 2021

BRAVEHEART RESOURCES INC.

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

The accompanying interim unaudited condensed consolidated financial statements of Braveheart Resources Inc. (the "Company") were prepared by management in accordance with International Financial Reporting Standards. Management acknowledges responsibility for the preparation and presentation of the consolidated financial statements, including responsibility for significant accounting judgments and estimates and the choice of accounting principles and methods that are appropriate to the Company's circumstances.

Management has established systems of internal control over the financial reporting process, which are designed to provide reasonable assurance that relevant and reliable financial information is produced.

The Board of Directors is responsible for ensuring that management fulfills its financial reporting responsibilities and for reviewing and approving the financial statements together with other financial information. The Audit Committee, on behalf of the Board of Directors, meets with management to review the internal controls over the financial reporting process, the financial statements together with other financial information of the Company, and the auditor's report. The Audit Committee reports its findings to the Board of Directors for its consideration in approving the financial statements for issuance to the shareholders. Management recognizes its responsibility for conducting the Company's affairs in compliance with established financial standards, and applicable laws and regulations, and for maintaining proper standards of conduct for its activities.

Notice of no auditor review of interim financial statements:

Under National Instrument 51-102, Part 4, subsection 4.3(3) (a), if an auditor has not performed a review of the interim financial statements they must be accompanied by a notice indicating that the financial statements have not been reviewed by an auditor.

The accompanying interim unaudited condensed consolidated financial statements of the Company have been prepared by, and are the responsibility of, the Company's management and have not been reviewed by the Company's independent auditors.

1. REPORTING ENTITY AND GOING CONCERN

Braveheart Resources Inc. (the "Company") is an exploration stage company engaged in locating, acquiring and exploring for precious metals in Canada. The Company was incorporated pursuant to the laws of Ontario on October 13, 2009. The Company is listed on the TSX Venture Exchange, having the symbol BHT as well as the OTCQB Venture Market in the United States, having the symbol RIINF, and the Frankfurt Stock Exchange having the symbol 2ZR, and is in the process of exploring its mineral properties.

The address of the Company's corporate office and principal place of business is 2520 – 16th Street NW, Calgary, Alberta T2M 3R2, Canada.

On January 18, 2019, the Company acquired all of the shares of Purcell Basin Minerals Inc. (Purcell) pursuant to a plan of arrangement and these consolidated financial statements include the operating results of Purcell and its subsidiaries (Bul River Mineral Corporation, Gallowai Metal Mining Corporation, Grand Mineral Corporation, and Stanfield Mining Group of Canada Ltd.) from the date of acquisition.

On December 22, 2020, the Company acquired all shares of Cadillac Ventures Holdings Inc. and on January 26, 2021 Cadillac Ventures Holdings Inc. changed its name to Pickle Lake Minerals Inc. (Pickle Lake). These consolidated financial statements include the operating results of Pickle Lake from the date of acquisition. The results of Pickle Lake are included in the consolidated statements of loss and comprehensive loss from the effective date of acquisition. All intercompany transactions, balances, income and expenses are eliminated through the consolidation process.

Going Concern

These consolidated financial statements have been prepared on a going concern basis, which contemplates that the Company will be able to realize its assets and discharge its liabilities in the normal course of business.

The Company for the nine months ended February 28, 2022 incurred a net loss of $2,842,086 (cumulative deficit of $26,543,745) and used cash flow in operating activities of $2,113,034. At February 28, 2022, the Company, has a working capital deficit of $5,309,705 (which includes $5,219,107 due to a related party (Note 10). The Company will be required to raise significant financing to fund both ongoing operating activities and the capital required to develop its existing mining properties. In addition, the Company has certain commitments (note 13) and debt maturities (notes 10 and 11) for which repayment will be required. The Company will have to raise significant additional funds to advance its exploration and development activities and, while it has been successful in doing so in the past, there can be no assurance that it will be able to do so in the future. Further, the Company's continued existence is dependent upon the preservation of its interest in the underlying mineral properties, the discovery of economically recoverable mineral reserves and the achievement of profitable operations.

As a result of these risks, there exists a material uncertainty that may cast significant doubt on the Company's ability to continue as a going concern.

These consolidated financial statements do not reflect the adjustments to the carrying values of assets and liabilities and the reported expenses or statement of financial position classifications that would be necessary if the going concern assumption was inappropriate. These adjustments could be material.

During March 2020, there was a global outbreak of COVID-19 (coronavirus), which has had a significant impact on businesses through the restrictions put in place by the Canadian governments regarding travel, business operations and isolation/quarantine orders. At this time, the extent of the impact the COVID-19 outbreak may have on the Company is unknown as this will depend on future developments that are highly uncertain and that cannot be predicted with confidence. These uncertainties arise from the inability to predict the ultimate geographic spread of the disease, and the duration of the outbreak, including the duration of travel restrictions, business closures or disruptions, and quarantine/isolation measures that are currently, or may be put, in place by Canada and other countries to fight the virus.

While the extent of the impact is unknown, we anticipate this outbreak may cause investment market volatility, supply chain disruptions, and increased government regulations, all of which may negatively impact the Company's business and financial condition. Exploration drilling operations were suspended during these restrictions.

2 BASIS OF PRESENTATION

2.1 Statement of compliance

The interim unaudited condensed consolidated financial statements have been prepared in accordance with International Accounting Standard 34, "Interim Financial Reporting" ("IAS 34"), as issued by the International Accounting Standards Board ("IASB") and therefore, do not contain all disclosures required by International Financial Report Standards ("IFRS") for annual financial statements. Accordingly, these interim unaudited condensed consolidated financial statements should be read in conjunction with the Company's most recently prepared audited annual financial statements for the fiscal year ended May 31, 2021.

The policies applied in these interim unaudited condensed consolidated financial statements are consistent with the policies disclosed in Notes 2, 3, and 4 of the audited annual consolidated financial statements for the year ended May 31, 2021.

The interim condensed consolidated financial statements were authorized for issue by the Board of Directors on April 26, 2022.

2.2 Basis of Consolidation

The consolidated financial statements include the financial statements of Braveheart Resources Inc. and its wholly-owned subsidiaries, Pickle Lake Minerals Inc. and Purcell Basin Minerals Inc., a company incorporated in British Columbia and its wholly-owned subsidiaries Bul River Mineral Corporation, Gallowai Metal Mining Corporation, Grand Mineral Corporation, and Stanfield Mining Group of Canada Ltd. Control is achieved when the Company has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. The results of subsidiaries acquired or disposed of during the year are included in the consolidated statements of loss and comprehensive loss from the effective date of acquisition or up to the effective date of disposal, as appropriate. All inter-company transactions, balances, income and expenses are eliminated through the consolidation process.

2.3 Basis of measurement

These consolidated financial statements have been prepared on the historical cost basis as set out in the accounting policies below. Certain items are stated at fair value.

3. FINANCIAL RISK MANAGEMENT

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework.

The Company's risk management policies are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Company has exposure to the following risks from its use of financial instruments:

- credit risk
- liquidity risk
- interest rate risk
- price risk
- commodity price risk
- foreign currency risk

This note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risk and the Company's management of capital. Further quantitative disclosures are included throughout these financial statements.

(i) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's accounts receivables, and cash and equivalents.

The Company considers this risk to be low.

Accounts Receivables

Receivables are measured at carrying value and are subject to credit risk exposure.

Cash and cash equivalents and deposits

At times when the Company's cash position is positive, cash deposits are made with financial institutions having reasonable local credit ratings.

(ii) Liquidity risk

Liquidity risk encompasses the risk that a company cannot meet its financial obligations in full. The Company's main sources of liquidity are its cash and cash equivalents. These funds are primarily used for operating costs, finance working capital, exploration expenditures, evaluation expenditures, and acquisitions.

The Company manages its liquidity risk by regularly monitoring its cash flows from operating activities and holding adequate amounts of cash and cash equivalents.

As part of its capital management process, the Company prepares budgets and forecasts, which are used by management and the Board of Directors to direct and monitor the strategy and ongoing operations and liquidity of the Company. Budgets and forecasts are subject to significant judgement and estimates relating to activity levels, future cash flows and the timing thereof and other factors which may or may not be within the control of the Company. The current volatility in commodity prices and overall global market uncertainty creates significant inherent challenges with the preparation of financial forecasts. See further discussions relating to going concern and liquidity in note 1.

The consolidated financial statements for the nine months ended February 28, 2022 have been prepared using IFRS applicable to a going concern, which assumes continuity of operations and realization of assets and settlement of liabilities in the normal course of business. However, Braveheart is in the exploration stage and is subject to risks and challenges similar to companies in a comparable stage. As a result of these circumstances, there is significant doubt as to the appropriateness of the going concern presumption. There is no assurance that Braveheart's funding initiatives will continue to be successful and these financial statements do not reflect the adjustments to the carrying values of assets and liabilities and the reported expenses and balance sheet classifications that would be necessary were the going concern assumption inappropriate. These adjustments could be material.

(iii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

Related party loans are at fixed rates and loans payable are variable.

(iv) Commodity price risk

The value of the Company's exploration and evaluation assets are related to the price of gold, copper, and other mineral commodities. Adverse changes in the price of gold and copper can also significantly impair the economic viability of the Company's projects, along with the ability to obtain future financing.

Gold, copper, and other mineral commodities prices historically have fluctuated widely and are affected by numerous factors outside of the Company's control, including, but not limited to, industrial and retail demand, central bank reserves, management forward sales by producers and speculators, levels of worldwide production, short-term changes in supply and demand due to speculative hedging activities, macro-economic variables and certain other factors related specifically to gold, copper, and other mineral commodities.

(v) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows will fluctuate as a result of changes in foreign currency exchange rates. The Company is exposed to foreign currency fluctuations as certain transactions and loans are denominated in United States dollars.

Sensitivity analysis - Based on management's knowledge and experience of the financial markets, the Company believes that movements at ± 10% are "reasonably possible" over a one year period:

(a) As at February 28, 2022, the Company had $966,937 in loans payable (which is net of unamortized loan fees of 138,172), and $1,392 in cash denominated US Dollar foreign currency.

(b) Price risk is remote since the Company is a non-producing entity.

Capital risk management

The primary objective of managing the Company's capital is to ensure that there is sufficient capital available to support the funding and operating requirements of the Company in a way that optimizes the cost of capital, maximizes shareholders' returns, matches the current strategic business plan and ensures that the Company remains in a sound financial position. (See note 1)

There were no changes to the Company's approach to capital management during the period, as compared to the prior year.

4. ACQUISITIONS OF MINERALS PROPERTIES

4.1 Summary of Asset Acquisition of Thierry

On December 22, 2020 the Company acquired the shares of Cadillac Ventures Holdings Inc. which owns the Thierry Mine Project (Thierry) near Pickle Lake, Ontario from Cadillac Ventures Inc. (Cadillac)(TSXV:CDC). This was an arm's length transaction.
The terms of the arrangement were as follows:

(i) $300,000 in cash;
(ii) 11,000,000 common shares of the Company;
(iii) up to an additional 2,500,000 common shares following delivery of the pending Updated Rehabilitation Plan to the Ontario Ministry of Northern Development, Mines, Natural Resources and Forestry;
(iv) Cadillac was responsible for settlement of certain liabilities on acquisition of Thierry – described as Cadillac amounts receivable. The Company reports below both the assumed accounts payable of Thierry and the corresponding Cadillac receivable.
(v) On July 29, 2021, the Company amended the agreement to purchase of a 2% Net Smelter Royalty ("NSR") on the Thierry Mine Project. Braveheart issued 250,000 common shares and made a cash payment of $225,000 to purchase the 2% NSR.

10. RELATED PARTY

On January 4, 2019 the Company entered into a loan agreement with Matlock Farms Ltd., a company controlled by Aaron Matlock, a director of the Company. The loan has a principal amount of $5,000,000 and carried an interest rate of 14.8% for a term of four years. Interest accrued for the first two years, and commencing in the third year, the Company will be required to make blended payments comprised of principal and interest.

Under the terms of the loan agreement, $650,000 of the $5,000,000 remained in an escrow account as security for certain third-party debts with Matlock Farms Ltd. The loan is secured by a general security agreement over Bul River assets pledged. During 2021, $141,278 was used as payment of loan.

On January 12, 2021 the Company renegotiated loan terms, effective January 19th, 2021, the interest rate was reduced to 10% for the balance of the loan. $780,000 of accrued interest was settled with the issuance of 6,500,000 common shares. A $323,920 modification gain was recorded on completion of this transaction.

Ocean debt - Stockpile loan

On March 17, 2021, the Company entered into a Concentrate Purchase Agreement with Ocean Partners UK Ltd. (Ocean) for the sale of its copper concentrates (with gold and silver credits) from its Bul River Mine. Additionally, Ocean has agreed to provide the Company with a Pre-Payment Financing Facility against initial proceeds from milling of mineralized material on surface. The Company is required to deliver 45,000 wet metric tonnes of copper concentrate. Ocean shall have a right of first refusal on any remaining production thereafter from Bul River. Interest on any amounts drawn is at 12-month LIBOR plus 8.75%. The Ocean debt is secured by Bul River mining assets. Blended interest and principle repayments to commence in March 2022.

On March 13, 2021, the Company made an initial draw of $1,248,181 (USD $1,000,000) net of arrangement fees and expenses associated with lender due diligence and legal fees.

The Company may access up to USD $3,500,000 subject to certain conditions, which can be used for capital expenditures at Bul River including plant commissioning and general working capital purposes. Further advances require:
-provide lender with independently verified mining financial plan with adequate equity raises.
-Government permit to operate the mine to be issued by December 31, 2021.
-the fair market value of tangible property is in excess of all debts and the Company is solvent, paying debts as they come due.

(In Canadian dollars)

On December 7, 2021 the Company amended the Ocean loan agreement by extending the maturity date under the facility to September 30, 2023 or such earlier date if the Company is in default of the conditions under the agreement.

In connection with the amendment, the Company granted to Ocean Partners 10,000,000 warrants of the Company with each warrant exercisable into a common share of the Company at an exercise price of $0.10 per warrant until September 30, 2023 or such earlier date if the maturity date under the facility is accelerated due to an event of default under the agreement.

The fair value of $305,784 for the 10,000,000 warrants issued of $0.03 per warrant was calculated at the issue date using the Black-Scholes pricing model. The assumptions for this calculation were a risk free interest rate of 1.03%, expected life of 1.82 years and historical volatility was used for calculation of expected volatility of 109%.
