1. REPORTING ENTITY AND GOING CONCERN

Braveheart Resources Inc. (the "Company") is an exploration stage company engaged in locating, acquiring and exploring for base and precious metals in Canada. The Company was incorporated pursuant to the laws of Ontario on October 13, 2009. The Company is listed on the TSX Venture Exchange, having the symbol BHT as well as the OTCQB Venture Market in the United States, having the symbol RIINF, and is in the process of exploring its mineral properties.

The address of the Company's corporate office and principal place of business is 2520 – 16th Street NW, Calgary, Alberta T2M 3R2, Canada.

On January 18, 2019 the Company acquired all shares of Purcell Basin Minerals Inc. (Purcell) pursuant to a plan of arrangement and these financial statements include the operating results of Purcell and its subsidiaries (Bul River Mineral Corporation, Gallowai Metal Mining Corporation, Grand Mineral Corporation, and Stanfield Mining Group of Canada Ltd.).

Going Concern

These interim unaudited condensed consolidated financial statements have been prepared on a going concern basis, which contemplates that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. The business of mining and exploring for minerals involves a high degree of risk and there can be no assurance that current exploration programs will result in future profitable mining operations and the Company has incurred significant losses to date resulting in a cumulative deficit of \$17,244,971 as at August 31, 2020. The recoverability of the carrying value of exploration properties and the Company's continued existence is dependent upon the preservation of its interest in the underlying properties, the discovery of economically recoverable reserves, the achievement of profitable operations, or the ability of the Company to raise alternative financing, if necessary, or alternatively upon the Company's ability to dispose of its interests on an advantageous basis. The Company is subject to risks and challenges similar to companies in a comparable stage of exploration and development. As a result of these risks, there remains significant doubt which constitutes a material uncertainty as to the appropriateness of the going concern assumption. There is no assurance that the Company's funding initiatives will continue to be successful and these financial statements do not reflect the adjustments to the carrying values of assets and liabilities and the reported expenses and statements of financial position classifications that would be necessary if the going concern assumption was inappropriate. These adjustments could be material. The Company will have to raise additional funds to advance its exploration, development and production efforts and, while it has been successful in doing so in the past, there can be no assurance that it will be able to do so in the future.

For the three months ended August 31, 2020, the Company had a net loss of \$735,588 and cash flow used in operations of \$24,100. As at August 31, 2020 the Company had working capital of \$666,343 including cash of \$332,022.

The Company has a history of operating losses. In recent years, it had negative cash flows from operations and working capital deficiencies.

Whether and when the Company can attain profitability and positive cash flows is uncertain. These uncertainties cast significant doubt upon the Company's ability to continue as a going concern.

Management continues to actively pursue additional sources of financing, and while it has been successful in doing so in the past, there can be no assurance it will be able to do so in the future.

3. ACQUISITION OF PURCELL BASIN MINERALS INC.

3.1 Summary of Acquisition

On January 18, 2019 the Company completed a definitive agreement to acquire the shares of Purcell Basin Minerals Inc. (Purcell) pursuant to a plan of arrangement and made pursuant to the Companies' Creditors Arrangement Act (CCAA). This was an arm's length transaction.

The cash cost of the priority payables was \$1,184,652.

The unit holders of CuVeras LLC ("CuVeras"), one of two secured creditors of Purcell, have been issued 10 million common shares of Braveheart and 10 million warrants of Braveheart, with each warrant entitling the holder to purchase a Braveheart common share at a price of \$0.15 per share for a period of 12 months.

Each Purcell equity holder, regardless of how many Purcell shares previously held by such equity holder, was required to make a flat cash payment of \$1,000 for all the Units purchased. On May 8, 2019, 118 pre-existing Purcell equity holders accepted the offer resulting in cash proceeds of \$118,000 and the issuance of 16,200,781 Units. These transactions have been reflected in 3.2 above.
